

P&C Principals Report
3rd August 2016

I will be relieving principal until the end of term. The panel will meet in Week 6 to prepare advertisement and later for shortlisting, interview and offer of position.

Whilst it is a tight timeline, it is anticipated the new principal will be appointed at the end of the term.

It has been a very busy start to term 3 with NAIDOC Week excursion and assembly, completion of interviews, district athletic carnival, visit by Japanese students and Kinders 100 days at school celebration. It will continue to be busy with TOM, Southern Stars and SIMF rehearsals and performances, Book week, CWA International presentation, Fun Run and visits by pre schoolers and the playgroup. ← wk 6

Jamberoo staff are a remarkable team and work well supporting each other and myself in my executive role. I truly appreciate the amount of time they give to their class and the extra curricula activities provided for our students.

Kate De La Heras is attending regular training session about LMBR (operation system) and I will commence my training on Friday. Ms Kathy Stewart is relieving in the office on these days. It is important for me to attend a number of principal's meetings and training sessions this term to facilitate passing on information to the new appointee.

Mr Ashton Reed provides support as SLSO in Wurrata on Wednesday and Thursday and I am timetabled as SLST with Mrs Martin (and Mrs Kirk) on Monday and Tuesdays in Literacy and Maths sessions. When available I also have some time on Thursday mornings.

We also have a new relieving GA for 4 weeks Helen Suma, and two cleaners. Christine Allen will be on duty in the mornings and Slavika M for the afternoon session. We are working though gates and unlocking at the moment.

Mrs Downey has arranged for The Green army from Killilea Park to assist at school. They are volunteering and working in the garden and the forest on Thursdays for 4-5 sessions.

Numbers are looking promising for 2017. If you know of any families wishing to enrol children please encourage them to do so early as anticipated numbers are required well before the end of the year and may affect staffing.
